SAP Enable Now Content Services

We support your SAP Enable Now (SEN) ambitions. Our SEN team has years of experience supporting the SAP Knowledge Transfer & Education team and can make a big difference for your organisation no matter your SEN requirements.. With us, you can:

1. Achieve quicker returns on your SAP Enable Now investment.
2. Renew your content cost-effectively.
3. Resolve common digital adoption issues.
4. Adapt existing learning content so that previous investments in time and content generation are not lost.

Why choose us?

We're experts in instructional design with deep SAP product knowledge and experience in developing standard SAP Enable Now (SEN) Framework content. We can establish your workflows and design automations to achieve your SEN goals. Our SEN Quick Start can quickly support all your SEN requirements, without the need for your own in-house SEN team.

More Information

Get the most out of your SAP Enable Now Investment.

Content Strategy
Blend standard content, modified content, and existing learning content. This improves multi-modality, avoids redundancy, and facilitates maintenance.

Content Development
Achieve positive experiences and faster return on your SAP investment with content to enhance user adoption and reduce end-user support requirements.

Content Localization
Whether you use SEN's built-in translation or localize manually, our specialist SEN and Localization teams can manage the process from end to end.

Content Maintenance
Quarterly SAP software releases demand new screens, approaches, and functionality. We ensure your content is up to date.

SAP Enable Now Consulting
We advise clients on SEN training, implementation, and content development and curation. We can establish your workflows and even design automations.

Tailored SEN Training
We provide tailored SEN training with our partners Olas. We train SEN Authors, Master Authors, Bookpage Specialists, and Documentation Specialists.
